EDUCATION

SURVEYING INSTITUTE

Beni- Suef University (2020- 2022)

PROJECTS

OM HOSPITAL MODULE

The OM Hospital module in Odoo 15 streamlines hospital management with features for patients, appointments, doctors, and medical records.

- Manage doctors' profiles, specializations, schedules, and staff roles, while generating accurate invoices for consultations and treatments. Securely store patient records and efficiently handle hospital inventory and pharmacy operations.

REAL ESTATE MODULE (ODOO 17)

The Real Estate module in Odoo 17 offers a comprehensive solution for managing property listings, sales, rentals, viewings, contracts, and invoicing.

- Property Management: Maintain detailed records of properties, including descriptions, locations, and pricing.
- Sales & Rental Workflow: Streamline property sales and rental processes, from inquiry to contract signing.
- Customer & Lead Management: Track leads, manage client interactions, and automate follow-ups.
- Financial Integration: Generate invoices, manage payments, and track commissions.

SCRAP MANAGEMENT MODULE

The Scrap Management module in Odoo streamlines the tracking and handling of scrap materials to reduce waste and improve operational efficiency.

- Scrap Tracking: Record and monitor scrap from production or inventory adjustments, with dedicated storage locations and easy transfers.
- Reporting and Analysis: Generate reports to track scrap trends and identify improvement areas.

CUSTOMIZATION IN ACCOUNTING, INVENTORY, CRM, SALES, HR & MANUFACTURING

Customized workflows in Accounting, Inventory, CRM, Sales, HR, and Manufacturing to optimize operations, improve tracking, and integrate processes efficiently across business functions.
